INCORPORATED IN 1897.

OFFICE AND FACTORY: NO. 127 W. WEALTHY AVE. ON LAKE SHORE R.R.

INTRODUCTION.

TO OUR PATRONS.....

It gives us pleasure to present herewith our new Catalogue and hope to receive a share of your orders which shall receive prompt attention. All ornaments shown in our catalogue are of the best designs and as bold as can be made at prices as low as is compatible with first-class goods.

SPECIAL DESIGNS.

We employ a number of skilled men who work entirely on special orders, thus enabling us to give low estimates on all special work. We can give estimates on all drawings and architects plans promptly and at prices consistent with first-class work.

NEW DESIGNS.

Our sheet metal ornaments are made from designs originated by us, and owing to their newness will, we hope, be acceptable to the trade as they are invariably lower in price than ornaments that have been on the market for a number of years, thereby enabling architects and cornice manufacturers to give their customers something new and at a reduced cost.

STEEL CEILINGS.

We make a specialty of steel ceilings. This kind of ceiling is now much used by builders on new buildings. For refinishing old ceilings it cannot be surpassed, for no matter how old, soiled or cracked the old ceiling may be, this steel ceiling covers it and forms a fire proof and beautiful ceiling, at a cost but a trifle greater than the plaster, paper or wood ceiling of five years ago. It can be repainted at any time at a small expense and so be made to retain its beauty. Our price on the ceiling includes painting on both sides, also crating.

TO CORNICE MANUFACTURERS AND ARCHITECTS.

Send us your plans or drawings and we will give you estimates promptly and at prices as low as the lowest on work that is as good as the best.

PRICES.

All prices on ornaments in this catalogue are based on zinc. Prices on copper, brass or aluminum furnished promptly on application. The demand for copper ornaments is constantly increasing, but is as yet insufficient to warrant catalogue price on same being put on every ornament. Discount to the trade.

IN ORDERING GOODS

Please state height of building on which ornaments are to be used, and state with each order whether you want goods shipped by express or freight.

METAL SPINNING.

We make a great many different articles in metal spinning not shown in this catalogue, as we have the machinery and tools to make anything in that line and will be glad to submit figures on anything sent us.

TINWARE.

On page 111 of this catalogue will be found a few of the many things we make in the tinware line. We would like to call special attention to our non-rusting tinware. We guarantee that this ware will not rust, and are meeting with great success in putting it on the market. The cost is only slightly greater than ordinary tinware and will outlast it three to one. We manufacture all sizes and kinds of pails, coffee and tea pots. We have modern tools and can fill large orders at extremely low prices.
